01. Logo Usage

Clear Space Rule

Always maintain a minimum clear space around the logo equal to the height of the letter 'H' in 'HERBELLA'. This ensures the logo is never crowded by other elements, text, or imagery.

Minimum Size

Print: No smaller than 25mm wide. | Digital: No smaller than 80px wide. Smaller sizes compromise legibility of the tagline.

Logo Versions

Full Color on White (Primary) — Use as the default wherever possible.

Full Color on Light Green (Secondary) — Use on brand-colored backgrounds.

Single Color Dark Green — For use on limited-color print applications.

Reversed White — For use on dark green or photographic backgrounds.

Logo Do's & Don'ts

04. Icon Style Guide

Herbella icons reinforce our natural, healing identity. Consistent icon usage across all materials strengthens brand recognition and visual language.

Icon Design Principles

Principle	Description
Style	Outline / line icons with 2px stroke weight. Organic, slightly rounded corners to reflect natural forms.
Size Grid	Icons designed on a 24×24px base grid. Available at 16px, 24px, 32px, 48px.
Color	Use Forest Green (#1A5C38) on light backgrounds. Use Off-White (#F5F5F0) on dark/green backgrounds.

Corner Radius	2px corner radius on geometric shapes. Curves follow botanical forms — no sharp right angles.
Spacing	Maintain 4px optical padding within the icon frame. Never crop an icon to bleed edge.
Fill States	Standard = outline stroke only. Active / Selected = filled with Mint Accent (#66BB6A) + Forest Green stroke.

Approved Icon Categories

The following icon sets align with the Herbella brand identity:

Nature & Botanicals <i>Leaf, flower, herb, root, seedling, tree</i>	Wellness & Health <i>Heart, drop, body, cycle, sun, moon</i>	Product & Commerce <i>Bottle, jar, capsule, bag, cart, delivery</i>
---	--	---

Icon Do's & Don'ts

✓ DO	✗ DON'T
Use icons from the approved set only	Do not mix multiple icon styles in one layout
Match icon style to context (outline = default)	Do not use filled and outline icons together
Maintain consistent 2px stroke weight	Do not rotate icons arbitrarily
Scale icons on the defined grid sizes	Do not apply gradients or drop shadows
Pair icons with short descriptive labels	Do not use icons smaller than 16px

05. Social Media Guidelines

Grid Layout Principle

Instagram grid should follow a 3-column repeating pattern: Product — Educational — Quote. This creates visual rhythm and a curated aesthetic when viewing the profile as a whole.

Maintain consistent use of brand colors, never use off-brand color filters or third-party presets that alter the green palette.

Caption & Hashtag Guidelines

Tone of Voice	Warm, knowledgeable, and encouraging. Speak as a trusted wellness guide — never clinical or cold.
Emojis	Use sparingly — maximum 3 per post. Preferred: 🌿 🍵 🌱 🌸 🌵. Never use unrelated or playful emojis.
Hashtags	Use 8–12 hashtags per Instagram post. Always include: #Herbella #HealingTheNaturalWay #HerbalWellness. Supplement with 5–8 niche hashtags.
Call-to-Action	Every post should include a CTA: 'Shop now', 'Learn more', 'Tag a friend', or 'Save this post'.
